

Tea is categorized into black, oolong, green and white tea, all of which are made from Camellia Sinensis.

It is the processing process that distinguishes the different varieties, but factors such as altitude, soil, rainfall and hours of sunshine also determine the character of the tea.

CERTIFIED ORGANIC & FAIRTRADE

FOLLIS CLASSIC

Follis Classic is a Certified Organic and Fairtrade tea at a very competitive price.

With a mix of eight teas, black and green teas, neutral and flavoured. We have also chosen rooibos, a caffeine-free herbal tea, rich in minerals and antioxidants.

It is a high grown, hand plucked tea from Nilgiri in south of India.

We directly import the teas without costly contacts and regularly visit plantations and factories on site in India.

What is a double certification?

Organically grown means that the product is produced without any environmental toxins such as artificial fertilizers or chemical pesticides.

Fairtrade is an independent product label that creates conditions for growers and employees in developing countries to improve their working and living conditions.

FOLLIS CLASSIC

Follis Classic is available in boxes of 100 and 20 teabags as well as in practical assortment boxes with six or eight different teas, 10 or 20 teabags of each flavour. All teabags are enveloped in sealed envelope to preserve their aroma.

Packaging 100-pack
