

Premium tea with a clear conscience

TEKOMPANIET

Premium tea that make a difference to people and the environment

LIFE BY FOLLIS is a carefully produced tea of premium Nilgiri quality. We offer exciting flavours, made from meticulously chosen ingredients with minimal environmental impact. We take pride in sourcing directly from the plantation to control the production all the way from the tea plant to your cup.

To provide you with the best and most palatable tea, only two leaves and a bud are harvested. The tea plants are grown high up in the Indian mountains in one single plantation, which lends it the classification Single Estate. The tea is produced according to the orthodox method, which gives more depth to the flavour, and allows it to preferably steep a little longer. All ingredients in Life by Follis are of exquisite quality.

Organic and Fairtrade certified products are essential to us, but we don't stop there. We hope that it is as important for you as it is for us that the people behind the product enjoy fair treatment and working conditions, and that the nature, animal life, and environment are also given the best of opportunities.

We want the name Life by Follis to reflect your contribution towards the improved conditions of animals, nature, and the people producing the tea.

Thank you for contributing!

Helena Kreibitz Founder, Tekompaniet

- FSC paper
- Brewing instructions
- Recycling information
- Box 100% recyclable
- Aroma safe pouch
- Vegetable ink
- EU organic & Fairtrade certified

Tea bag and tag tied together with organic cotton thread

Teabag 100% recyclable

Oxygen bleached tea bags

No metal staples or glue on teabag or tag

SCHOOL FOR ALL

The plantation in India runs the largest school in the district. The school currently has approximately 1,300 students from preschool through elementary school to high school. Children of both factory workers and managers study under the same roof with the same conditions. For students who live far away, accommodation is available during the week and for those without family there is an orphanage.

Visit our Youtube channel to see more about the school.

Sustainability

Sustainability is an important and central part of our business. From the beginning of 2000, most of our products are produced under ethical and environmentally friendly conditions. Since 2005 more than 80% of our products are both certified EU Organic and Fairtrade.

- We buy as close to the producer as possible for two reasons; it benefits those who work in the country of production and it promotes sustainability.
- We have a well-developed Code of Conduct and Supplier Code of Conduct.
- 2-3 times a year we visit our suppliers in Asia including their plantations and factories. We conduct regular interviews with tea pluckers and factory workers to ensure that everyone works under fair conditions.
- We support local development projects. Since 2018, we fund a project in Sri Lanka aimed at lifting women out of poverty, through teaching them how to cook and start their own catering business. For the tea pluckers on the plantation in the south Indian Blue Mountains, we have replaced the heavy tea plucking baskets with lightweight baskets made of net.
- The shortest possible delivery route is always in focus. Our teas come from a specific plantation and are transported by boat directly from the producer country to our warehouse in Sweden.
- Traceability. All of our teas are Single Estate, that is, they come from the same plantation. We can trace our tea all the way back to the tea plucker.

An organically grown product is produced without any environmental toxins such as fertilizers or chemical pesticides. The EU has an ecological logo to ensure consumer protection and common standards. When consumers, like yourself, choose to buy organic, they need to be sure they receive exactly what they pay for:

Fairtrade is an independent product label and your guarantee that a product meets international Fairtrade criteria. Fairtrade is a simple way to make a difference to the lives of the people who grow and create the things we love. It's all about making trade fair.

MEDICAL CARE ON EQUAL TERMS

On the plantation, the workers have free housing and the opportunity to visit nurses and doctors free of charge. In case of more serious illnesses, there is one of its own ambulance and a larger hospital in the district with access to specialist doctors, x-rays and surgery. All this is made and operated by the company who own the plantation.

FOLLIS CLASSIC

Follis Classic is a classic double certified tea at a very competitive price.

Both organic and Fairtrade-certified in eight classical flavours that suit most tea drinkers.

It is a mix of black and green teas, flavoured, unflavoured and caffeine-free Rooibos.

The teas are enveloped, which both protects the tea, (tea is destroyed by light, easily absorbs other fragrances and attracts moisture) and keeps the serving fresh and hygienic.

PACKAGING
6 assortment boxes/
carton.

- English Breakfast
- Green Tea
- Green Tea Lemon
- Earl Grey
- Forest Fruit
- Lemon
- Blackcurrant
- Rooibos

ASSORTMENT BOX

BETTER WORK TOOLS

We have bought 350 lightweight baskets for the tea pluckers on the plantation in the Blue Mountains, India. We have replaced the heavy and unwieldy tea plucking baskets with lightweight baskets made of net with a high 'collar' to easily throw the tea leaves over the shoulder.

The traditional bamboo baskets weight 4000 g and the new light basket 400 g.
