

A close-up photograph of a glass filled with a rich, amber-colored liquid, likely whiskey. The glass is partially filled, and the liquid's surface is slightly rippled. In the foreground, several dark, irregular wood chips are scattered on a dark surface. The background is a soft, out-of-focus light blue-grey. The overall lighting is warm and focused on the glass.

Premium quality
with a clear
conscience.

TEKOMPANIET

Premium tea that make a difference to people and the environment

LIFE BY FOLLIS is a carefully produced tea of premium Nilgiri quality. We offer exciting flavours, made from meticulously chosen ingredients with minimal environmental impact. We take pride in sourcing directly from the plantation to control the production all the way from the tea plant to your cup.

To provide you with the best and most palatable tea, only two leaves and a bud are harvested. The tea plants are grown high up in the Indian mountains in one single plantation, which lends it the classification Single Estate. The tea is produced according to the orthodox method, which gives more depth to the flavour, and allows it to preferably steep a little longer. All ingredients in Life by Follis are of exquisite quality.

Organic and Fairtrade certified products are essential to us, but we don't stop there. We hope that it is as important for you as it is for us that the people behind the product enjoy fair treatment and working conditions, and that the nature, animal life, and environment are also given the best of opportunities.

We want the name Life by Follis to reflect your contribution towards the improved conditions of animals, nature, and the people producing the tea.

Thank you for contributing!

Heleen Kieft Founder, Tekompaniet

FOLLIS CLASSIC

Follis Classic is a classic double certified tea at a very competitive price.

It is both organic and Fairtrade-certified in eight classical flavours that suit most tea drinkers.

It is a mix of black and green teas, flavoured and unflavoured and caffeine-free Rooibos.

The teas are enveloped, which both protects the tea, (tea is destroyed by light, easily absorbs

Sustainability – Always!

Sustainability has always been central to us. From the beginning of 2000, most of our products have been produced under ethical and environmentally friendly conditions and many products were certified EU Organic and Fairtrade. Tekompaniet was very early in offering double certified products!

- We have always strived to buy as close to the producer as possible for two reasons; it benefits those who work in the production country and it promotes sustainability.
- We have a well-developed Code of Conduct and Supplier Code of Conduct.
- 2-3 times a year we visit our suppliers in Asia including their plantations and factories. We conduct regular interviews with tea pluckers and factory workers to ensure everyone works in fair conditions.
- In Sri Lanka and India, we support local development projects. Since 2018, we have funded a project in Sri Lanka aimed at lifting women out of poverty and, through training, teaching women how to cook and start their own catering business.
- The shortest possible delivery route is always in focus. Our teas come from a specific plantation and are transported by boat directly from the producer country to our warehouse in southern Sweden.
- Traceability. All of our teas are Single Estate, that is, they come from the same plantation. We can trace our tea all the way back to the tea plucker.
- Hand-picked and from the same plantation in southern India. After processing and packing, our teas are shipped by boat directly to Sweden or your warehouse. That's really fresh tea!
- Production close to source.
- Extensive work in ethics and the environment.

An organically grown product is produced without any environmental toxins such as fertilizers or chemical pesticides. The EU has an ecological logo to ensure consumer protection and common standards. When consumers, like yourself, choose to buy organic, they need to be sure they receive exactly what they pay for. The organic logo and labelling system make this possible.

Fairtrade is an independent product label and your guarantee that a product meets international Fairtrade criteria. Fairtrade is a simple way to make a difference to the lives of the people who grow and create the things we love. It's all about making trade fair.

Sustainability Meets Premium Quality

Tekompaniet is family-owned and work with tea and tea accessories since 2000. With over 20 years in the industry, our team is unique and very knowledgeable. We want to give you the best and tastiest tea for both your taste buds and conscience - we are proud to offer sustainable, ethically produced bag or loose leaf tea of premium quality. We also offer an array of smart, sustainably produced accessories.

With exceptional knowledge and a unique commitment, we offer you innovative premium products that are socially, environmentally and economically sustainable. It is of utmost importance for us to work closely in cooperation with our suppliers and those who pick and refine this fantastic herb called Camellia Sinensis.

Working with us at Tekompaniet allows you to get tea directly from the source. We provide traceability from plant to cup, with tea that is fresh, orthodox produced and of high quality raw materials. Sustainability for both people and the environment has been our focus since the start in 2000, long before it was a requirement from the market. In addition, we are involved in and support various projects in India and Sri Lanka which means together, we have a low environmental impact and work towards a sustainable future.

With Tekompaniet, you get a committed and close partner with a unique knowledge of tea.
